# Trucking Industry Perspective on Vehicle Ramming

Jeff Ferber

Manager of Security, ABF Freight

Chairman, ATA's Transportation Security Council

# Trucking Industry Perspective on Vehicle Ramming

- Law Enforcement Intel:

*Trust in and appropriately react to*

# Trucking Industry Perspective on Vehicle Ramming

- The trucking industry's role

*Needs to be the "eyes and ears" for law enforcement*

# Trucking Industry Perspective on Vehicle Ramming

- Just like FMCSA's safety oriented pre- and post-trip driver inspections [49 CFR 396.11], industry needs a standardize "security pre- inter- and post-trip inspection" protocol.

*Develop as a best practice  
Standardized inspection protocol with additional  
requirements based on alert levels, equipment  
type, cargo, etc.*

# Trucking Industry Perspective on Vehicle Ramming

- Develop a “Culture of Security” – enhanced awareness of your environment

*With the drivers*

*With dock workers*

*With shippers*

*Everywhere along the supply chain*
