

**Mezzalina DeJongh  
Southeast Area Manager  
Trimac Transportation**

In 2008, Mezzalina began her journey in the transportation industry working her way from the ground up. She began as a wash rack technician and has worked in customer service, distribution center management, dispatch, operations, and terminal management which has led to her current role as the Southeast Area Manager for Trimac Transportation.

Mezzalina has a true passion for the industry which is shown through her involvement in the trucking community. She is a LEAD ATA graduate, class of 2020, resulting in further involvement with the American Trucking Associations. She has served on several committees and has presented to many, giving insights on the future of trucking's workforce. Mezzalina is Six Sigma certified at the Green Belt level with her last project focusing on load optimization.

Mezzalina finds trucking to be a great career for all women stating, "if you are willing to put in the work, the opportunities are endless, and a rewarding career awaits!"
