"The future of trucking is now. The industry is changing so rapidly, with many new technologies coming out. It's exciting to know that myself and other people of my generation will play a big part in the future of trucking. During my time with Trucking U, I learned how vital trucking is to the economy and the role people my age will play once we enter the workforce."

Nick Brown,
Supply Chain Management Major,
University of Rhode Island

"Coming to MCE was a great way to kick off my senior year. I was able to look for different jobs and learn more about the industry. Participating in ATA's Trucking U has gotten me excited to join the workforce, and I'm thrilled to kick-start my career in this fulfilling industry."

Amanda Vaughn,
Supply Chain Logistics and Marketing Major
Mississippi State University

"My favorite part of ATA's Trucking U was getting to meet my mentor as well as trucking executives. I learned how large the industry was, key industry issues, and in-depth technical knowledge I otherwise hadn't learned in class. The best part of the industry is the culture, from the executives to the drivers, I was treated like the luckiest human being."

Chandler Buss,
Business Administration Major,
Huntingdon College
